

3D FLOOR SHAKER

Features 3D rocking circular motion and ideal for replicating hand shaking of separatory funnels. Digital display interface with speed and time.

- 3D motion circulates liquid up, down, sideways, and around for effective mixing
- Excellent for extraction work and water testing methods
- Shakes up to eight 2L funnels; no balancing required
- Rack design minimizes strain on drains and stopcocks and reduces the possibility of broken glassware

Specifications

Motor Speed: Variable, 10-170rpm

Load Weight Capacity: 36.3kg

Floor pads on base have mounting holes for bolting shaker in place

Base dimensions: 69cm x 77cm x 66cm

Platform working height: 91.4cm

Electrical

240V, CE Furnished with 2.5-meter cord and CEE 7/7 plug.

240V Furnished with 1.2-meter cord and locking connector.
